**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE  
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

Applicant: Monster, Inc.  
Serial Number: 85318060  
Filing Date: May 11, 2011  
Mark:

Examining Atty: Kim Teresa Moninghoff, Esq.  
Law Office: 113

Commissioner for Trademarks  
P.O. Box 1451  
Alexandria, Virginia 22313-1451

**REQUEST FOR REMAND AND SUSPENSION OF APPEAL**

Applicant Monster, Inc. respectfully requests remand of the application to the Examining Attorney, and suspension of the appeal.

This request is not filed for purposes of delay. Rather, on July 8, 2014, the Examining Attorney objected to Internet evidence submitted by Applicant on the grounds that the web pages had not been authenticated pursuant to TMEP § 710.01(b). To provide a full record for consideration by the Board, Applicant seeks to resubmit such evidence in a format that will satisfy the Examining Attorney's objection. In addition, Applicant submits additional examples of various cable designs for the Examining Attorney to consider. Such evidence may result in the reconsideration and withdrawal of the refusals and objections to evidence in whole or in part.

Accordingly, in view of these circumstances, remand of this application to the Examining Attorney for review and consideration of the Request for Reconsideration is warranted, and Applicant respectfully requests that this request be granted. Applicant also requests the suspension of the appeal pending disposition of the Request for Reconsideration.

Alexandria, Virginia 22313-1451

**REQUEST FOR RECONSIDERATION OF FINAL OFFICE ACTION**

Applicant Monster, Inc. respectfully requests that the Examining Attorney reconsider the Final Office Action, issued September 10, 2012.

On July 8, 2014, the Examining Attorney objected to Internet evidence submitted by Applicant on the grounds that the web pages had not been authenticated pursuant to TMEP § 710.01(b). Under TMEP § 710.01(b), Internet evidence can become part of the record if Applicant provides the date the evidence was accessed and the complete URL address of the website, and attaches a copy of the web page. In response, Applicant submits the attached Declaration of Lindsay Coleman, an attorney at Kelly IP LLP, attaching Internet evidence as Exhibits 1 through 28 of headphones with “tangle-free” or “tangle resistant” cable designs that do not feature a cross-section in the form of an oblong, do not have contoured outer edges, or are not in a shape that is significantly wider than it is thick.

In addition, as shown in Paragraphs 3 through 20 of Lindsay Coleman's Declaration and in Paragraphs 2(b) and 3(b) of the attached Declaration of Jacob T. Mersing, Applicant found hundreds of other headphones for sale in the marketplace with cable designs that differ from Applicant's design, specifically, designs that do not feature a cross-section in the form of an oblong, do not feature contoured outer edges, or do not feature shapes that are significantly wider than they are thick. This additional evidence supports the opinions of Applicant's in-house and outside design experts that Applicant's design is not legally functional and is not generic, for all the reasons stated in Applicant's previous submissions. Accordingly, Applicant requests that the prior refusals to register this mark be withdrawn.

**DECLARATION OF LINDSAY COLEMAN**

I, Lindsay Coleman, hereby declare as follows:

1. I am employed as an Attorney at Kelly IP, LLP, 1330 Connecticut Avenue, NW, Suite 300, Washington, DC 20036, counsel for Monster, Inc. This declaration is based on my personal knowledge.

2. During the period of November 4, 2014 through November 12, 2014, I conducted Internet searches for headphones that are advertised, offered and/or sold in commerce through various retail and manufacturer websites on the Internet.

3. I visited the Best Buy website at the URL <http://www.bestbuy.com> and searched for “tangle-free” headphones. The search returned several hundred results for “tangle-free” or “tangle resistant” headphones, including numerous headphones with cables that were circular or round in shape, twisted cables, zipper-style cables, rounded cables with a center inverted channel, and fabric-coated cables, among others. These cable designs do not feature a cross-

section in the form of an oblong, do not have contoured outer edges, and are not in a shape that is significantly wider than it is thick. True and correct copies of representative pages printed from this website are attached as Exhibits 1 through 16.

4. I visited the Amazon website at the URL <http://www.amazon.com> and searched for “tangle-free” headphones. The search returned approximately four thousand results for “tangle-free” or “tangle resistant” headphones, and I reviewed approximately one thousands of them. These search results showed a wide variety of headphones and cables, including cables that were circular or round in shape, twisted cables, zipper-style cables, rounded cables with a center inverted channel, and fabric-coated cables, and that advertises the headphone cables as “tangle-free” or “tangle resistant.” These cable designs do not feature a cross-section in the form of an oblong, do not have contoured outer edges, and are not in a shape that is significantly wider than it is thick. True and correct copies of representative pages printed from this website are attached as Exhibits 17 through 23.

5. On November 10, 2014, I searched the Amazon website for “Zipbuds.” I visited the URL <http://www.amazon.com/Zipbuds-Earbuds-Featuring-ComfortFit2-Technology/dp/B00E952W12> on the Amazon website that sells “Zipbuds,” and advertises the headphone cable as “Never Tangles.” The Zipbuds web page printout is attached as Exhibit 24. I also clicked on each image detail to the left of the product description and printed each page containing the image details. All printouts of the Zipbuds pages from the above URL are attached as Exhibits 25 through 28, respectively.

6. On November 6, 2014, I visited the AKG Audio website at the URL <http://www.akg.com/Home-793.html>, and reviewed all of the 18 headphones advertised and offered for sale on the AKG Audio website. I printed representative pages containing

headphones with various cable designs. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, and are not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of representative pages from this website are attached as Exhibits 29 through 34.

7. On November 7, 2014, I visited the Audio-Technica website at the URL <http://www.audio-technica.com/cms/site/c35da94027e94819/index.html> and reviewed all of the more than 100 Audio-Technica headphones offered for sale on the Audio-Technica website. I printed representative pages containing headphones with various cable designs. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, and are not in a shape that is significantly wider than it is thick as shown in the attached printouts. I also printed a web page on the Audio-Technica website showing the Authorized Retailers of Audio-Technica products. True and correct copies of printouts of the pages from this website are attached as Exhibits 35 through 42.

a. On the Audio-Technica website for the product ATH-COR150BK at the URL <http://www.audio-technica.com/cms/headphones/b288e49e43e1ada4/index.html>, I clicked on the image of the black headphones in the first row, second column, which makes that image appear larger to the left of the product description. Then I clicked on that larger image and the larger image popped up within the webpage. Finally, I clicked on the link for “Download Hi-Res Image” within that pop up and printed that image, which is attached as part of Exhibit 36.

b. On the Audio-Technica website for the product ATH-WS77 at the URL <http://www.audio-technica.com/cms/headphones/62783509acee605c/index.html>, I clicked on the large image to the left of the product description, and that image popped up within the webpage.

Finally, I clicked on the link for “Download Hi-Res Image” within that pop up and printed that image, which is attached as part of Exhibit 38.

c. On the Audio-Technica website for the product ATH-CKP500 at the URL <http://www.audio-technica.com/cms/headphones/a7b44679edb6aba6/index.html>, I clicked on the image of the white headphones in the second row, first column, which makes that image appears larger to the left of the product description. Then I clicked on that larger image and the larger image popped up within the webpage. Finally, I clicked on the link for “Download Hi-Res Image” within that pop up and printed that image, which is attached as part of Exhibit 40.

8. On November 7, 2014, I visited the Bang & Olufsen website at the URL <http://www.bang-olufsen.com/en> and reviewed all of the Bang & Olufsen headphones offered for sale on the Ban & Olufsen website. I printed representative pages containing headphones with various designs. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, or are not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the representative pages from this website are attached as Exhibit 43.

9. On November 7, 2014, I visited the Bowers-Wilkins website at the URL <http://www.bowers-wilkins.com/> and reviewed all of the Bowers-Wilkins headphones offered for sale on the Bowers-Wilkins website. I printed representative pages containing headphones with various designs. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, or are not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the page from this website are attached as Exhibit 44.

10. On November 7, 2014, I visited the Harmon Kardon website at the URL <http://www.harmankardon.com/estore/hk/us/index.jsp> and reviewed all of the Harmon Kardon headphones offered for sale on the Harmon Kardon website. I printed representative pages containing headphones with various designs. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, or are not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of the representative pages from this website are attached as Exhibits 45 and 46.

11. On November 7, 2014, I visited the House of Marley website at the URL <http://www.thehouseofmarley.com/> and reviewed all of the more than 17 House of Marley headphones offered for sale on the House of Marley website. I printed representative pages from the website containing headphones with a cable design made of woven fabric. Such cables do not feature a cross-section in the form of an oblong, do not have contoured outer edges, or are not in a shape that is significantly wider than it is thick. I also printed a web page on the House of Marley website showing the Authorized Retailers of House of Marley products. True and correct copies of printouts of the representative pages from this website are attached as Exhibits 47 through 53.

12. On November 7, 2014, I visited the Klipsch website at the URL <http://www.klipsch.com/> and reviewed all of the Klipsch headphones offered for sale on the Klipsch website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of the pages from this website are attached as Exhibits 54 through 60.

a. On the Klipsch website for the product X11i at the URL

<http://www.klipsch.com/x11i-headphones/details>, Klipsch advertises the X11i as “tangle-free.”

From the X11i web page, I clicked on the link for “Get Full-Resolution Image” to get the high resolution photograph of the product. I printed the Klipsch X11i product page and the high resolution image of the X11i product, which is located at the URL

[http://images.klipsch.com/x11i\\_635097510180440000.jpg](http://images.klipsch.com/x11i_635097510180440000.jpg). The printouts from this website are attached as Exhibit 54.

b. On the Klipsch website for the product S3m at the URL

<http://www.klipsch.com/S3m-headphones/details>, Klipsch advertises the S3m cable as “tangle resistant.” From the S3m web page, I clicked on the link for “Get Full-Resolution Image” to get the high resolution photograph of the product. I printed the high resolution image of the S3m product, which is located at the URL

[http://images.klipsch.com/S3m\\_Jade\\_635059520921620000.jpg](http://images.klipsch.com/S3m_Jade_635059520921620000.jpg). The printout is attached as Exhibit 56.

c. On the Klipsch website for the product Status at the URL

<http://www.klipsch.com/klipsch-status-on-ear-headphones/details>, which has a round cable design made out of leather, I clicked on the link for “Get Full-Resolution Image” to get the high resolution photograph of the product. I printed the Klipsch Status product page and the high resolution image, which is located at the URL

[http://images.klipsch.com/S3m\\_Jade\\_635059520921620000.jpg](http://images.klipsch.com/S3m_Jade_635059520921620000.jpg), and is attached as Exhibit 58. I also printed the brochure for the Status, found at the URL [http://images.klipsch.com/STATUS\\_-\\_Spec\\_Sheet\\_635145784057140000.pdf](http://images.klipsch.com/STATUS_-_Spec_Sheet_635145784057140000.pdf), which is attached as Exhibit 60.

13. On November 7, 2014, I visited the Ultimate Ears website at the URL <http://www.ultimateears.com/en-us/> and reviewed all of the Ultimate Ears headphones offered for sale on the Ultimate Ears website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of the representative pages from this website are attached as Exhibits 61 and 62.

14. On November 7, 2014, I visited the Plantronics website at the URL <http://www.plantronics.com/us/> and reviewed all of the Plantronics headphones offered for sale on the Plantronics website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the representative pages from this website is attached as Exhibit 63.

15. On November 7, 2014, I visited the Polk website at the URL <http://www.polkaudio.com/> and reviewed all of the Polk headphones offered for sale on the Polk website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the representative pages from this website is attached as Exhibit 64.

16. On November 7, 2014, I visited the Sennheiser website at the URL <http://en-us.sennheiser.com/> and reviewed all of the Sennheiser headphones offered for sale on the Sennheiser website. I printed representative pages containing headphones with a cable design

that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of the representative pages from this website are attached as Exhibits 65 through 67.

17. On November 7, 2014, I visited the Shure website at the URL <http://www.shure.com/> and reviewed all of the Shure headphones offered for sale on the Shure website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the representative pages from this website is attached as Exhibit 68.

18. On November 7, 2014, I visited the Sony website at the URL <http://www.sony.com/> and reviewed all of the Sony headphones offered for sale on the Sony website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. I located the EX Series headphones on the Sony website at URL [http://store.sony.com/ex-series-earbuds-zid27-MDREX100AP//cat-27-catid-All-Earbuds?vva\\_ColorCode=022CBA&t=pfm%3Dcategory](http://store.sony.com/ex-series-earbuds-zid27-MDREX100AP//cat-27-catid-All-Earbuds?vva_ColorCode=022CBA&t=pfm%3Dcategory), which I printed and is attached as Exhibit 69. From the EX Series website, I clicked “Zoom” found on the image of the earbuds, and printed the EX Series web page before and after clicking “Zoom”. A true and correct copy of the Zoomed image printout is attached as Exhibit 70.

19. On November 7, 2014, I visited the Sol Republic website at the URL <http://www.solrepublic.com/> and reviewed all of the Sol Republic headphones offered for sale on

the Sol Republic website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. A true and correct copy of a printout of the representative pages from this website is attached as Exhibit 71.

20. On November 7, 2014, I visited the Yurbuds website at the URL <http://www.yurbuds.com/> and reviewed all of the Yurbuds headphones offered for sale on the Yurbuds website. I printed representative pages containing headphones with a cable design that does not feature a cross-section in the form of an oblong, does not have contoured outer edges, or is not in a shape that is significantly wider than it is thick as shown in the attached printouts. True and correct copies of printouts of the representative pages from this website are attached as Exhibits 72 and 73.

I declare under penalty of perjury of the laws of the United States that the foregoing is true and correct under 28 U.S.C. § 1746. This declaration was executed on November 12, 2014.

## What's Included

- ATH-COR150 Core Bass In-Ear Headphones
- Cord Wrap
- Ear Hangers
- Ear Tips (S/M/L)

Audio-Technica brings its pro audio expertise to the design of Core Bass in-ear headphones. Proving that even a small earphone can produce an impressive bass response, Core Bass offers full and heavy tones for rock, electronica and bass-driven metal ... without sacrificing clarity. These advanced-fit in-ears come equipped with snap-on, snap-off ear hooks for the latest word in comfort and wearing stability. Snap them on if you prefer an over-the-ear cord-fit engineered to keep the Core Bass 'phones perfectly in place in the gym or out and about, regardless of your activity level. Snap them off if you prefer a more traditional fit, with the cord resting in front of the ear. The included travel-friendly cord wrap makes it easy to carry the in-ears without tangling the cord.

### Experience PureSound

Experience your tunes with the first and only consumer earphones to have a built-in PureSound Processor for the ultimate in distortion-free, 3-dimensional listening. This patented technology delivers only the PureSound from your Smartphone and iPod/Mp3 player to your ClarityOne™ Earbuds. The result: a perfect sound experience.

ClarityOne™ Earphones are revolutionizing the way people hear their music. For so long distorted sound quality and high resistance, that eliminates harmonics, has been the norm. Headphone and speaker manufacturers have added flair to earphones by playing with colours or basic aesthetic design, but they have not tested the limits of sound production or created a pure, unadulterated, undistorted 3-dimensional listening experience. UNTIL NOW!

## Product Features

Connectivity Technology: Wired

Cable Length: 4 ft

#### Spirit One: Focal's around-the-ear, closed-back headphones

Designed to be used on the go, one pre-requisite for the first Focal hi-fi headphones was for them to have optimal sound insulation. The technical specifications: keep unwanted, ambient noise out so the Focal sound could be heard unhindered. That challenge has been successfully met with the Spirit One, around-the-ear, closed-back headphones offering an impressive set of technical features.

### Product Features

Connectivity Technology: Wired

Cable Length: 3.94 ft

Most Helpful Customer Reviews

★★★★★ GGMM - Hummingbird Earphones, Black

By Tech Guy on April 20, 2014

Color Name: Black | Verified Purchase

They were offering 20% discount so I decided to purchase it. Before I comment the product I would like to mention their great customer service,they are quick to reply to my requests regarding discounts and product delivery. I purchased the Hummingbird earbud I was surprised by the hi-end materials of GGMM Hummingbird, it blew away my expectations. First of all, the earphone provides a clear, crisp sound at all volume levels. I was listening to "Hotel California" I can clearly hear the various instruments in the background of the introduction. The noise isolation is as good as advertised, The noise isolating ear gels I shut out all noise or voices around me when I had the volume around 50%. The integrated pick up/end call button is very useful. I don't have to get my phone and slide it to answer any calls, all you have to do is push a button and I can talk through the microphone. I really like the two-layer molded design of the earphone, and the quality, full metal housing eliminates noise distortion and vibration. Bottom line, it is really comfortable and probably the one of the best if not the best earphone I have bought and the price is definitely makes it worth buying when compared to similar spec name brand.

★★★★★ Crisp, Clear and Very Powerful !

By Extra ! Extra ! on February 21, 2014

Color Name: Silver | Verified Purchase

My first experience with this earphone brand was when I visited Japan. I left my JBL J33a behind and purchased this earphone at the Narita airport retail shop, though I had to pay much more for it, approximately \$80 USD equivalent and worth every penny of it. After 19 years of everything Bose and JBL, a certain signature of performance and feel are expected when trying other audio brands, this earphone somehow delivered all of them to the point. Full dynamics, solid bass and extremely precise acoustics are all there. I like to listen to pops, raps and everything else in between depending on the occasion, and this earphone delivers with pure, accurate results of high-frequency response, discrete mid-range and very deep, excitable bass. Full-mental jacket alloy casing is weight substantial but very well balanced and comfortable. It comes with 3 sets of different size in-ear silicone sleeves and a one-of-a-kind creative carry case that I still haven't seen anyone offer before and always asked about it by anyone who can see me using it. This purchase is my third unit of the earphone and this time as a gift. I am glad that I can find this product on Amazon. Top performance, excellent value, highly recommended for anyone. BTW, thanks GGMM, super-fast shipping!

## Product Description

Hand wrapped headphones make a unique & fashionable statement while listening to your music and they are always easy to spot! Best of all, they NEVER TANGLE!!! Protect your earbuds & show off your unique style with many designs to choose from. They are carefully hand wrapped and are made to order. THESE ARE NOT MADE WITH EMBROIDERY FLOSS or THREAD... as it tends to fray after very little use. Made with 100% USA grown Eco-Cotton yarn.

## Product Description

Specifically designed for use with clip-on style music players, Short Buds allow for easy attachment to collars, hats, jerseys, helmets, and sports bras, eliminating the tangling and catching that often comes with having extra cord. Perfect for running, walking, cycling, hiking, or while working out at the gym. Our in-ear style earbud features soft rubber eartips of varying sizes for a comfortable, secure, near-customiz

★★★★★ **Durable headphones when paired with iPod Nano lanyard**

By [P. Scott Pope](#) [TOP 1000 REVIEWER](#) on March 1, 2014

**Verified Purchase**

Over the years, I have tested (and broken) dozens of pairs of headphones. Many of these were lanyard headphones where the copper cables are supporting the bouncing mass of an iPod nano. This unfortunately leads to frequent damage to the conducting wires. Now that Apple no longer

## Most Recent Customer Reviews

★★★★★ These are perfect for the mini mp player that I clip onto ...

These are perfect for the mini mp3 player that I clip onto the neck of my shirt when I work out - they're not long enough for anything else. [Read more](#)

★★★★★ **decent sound, poor QC**

Sound was surprisingly good for \$15 (heavy on the

makes lanyard headphones, my choices are limited to separate lanyard decoupled from an unrelated pair of headphones. Conventional headphones are way too long and can be a real distraction while exercising.

Two models of short, symmetric headphones that I have tried are these from Far End Gear and the Halo Rhythm headphones. The first pair of Halo headphones didn't last long. In fact, they even look and feel extremely flimsy when compared to OEM headphones. So, I purchased these from Far End Gear and another pair of Halo Rhythm headphones to compare them head-to-head. The sound quality and noise isolation are about equal for both models. However, these appear much more durable due to the fabric wrap. While this may only be an illusion, they have stood up to a fair amount of abuse during the short ownership period. As soon as they break, I will report back to the Amazon community. For the time being, these are the best short headphones to date.

Side note -- I also have used two different types of semi-short, asymmetric stereo headphone attachments for Bluetooth receiving units by Sony and Samsung. These are almost as cumbersome as full length headphones when used without the Bluetooth receiver, so any comparison is somewhat irrelevant. However, the Far End Gear headphones feel and appear more durable than these as well.

The opposite of durable. The filter covering the right speaker became loose after two months - the adhesive simply disintegrated and the filter fell off when I was switching out... [Read more](#)

Published 1 month ago by Baby Bird

★★★★☆ **Good sound, good quality, doesn't tangle**

Ordered them back in February (2014) and last week the sound started fading away. If I jiggle with the plug into my blueant the normal stereo sound would come back but some times in the middle of a workout the sound would get bad again.

They fit nice on the ear but the cord is very stiff.

Pricey for a par or earbuds that only lasted a few months of twice-a-week workouts. They didn't even get wet as all of the sweat would fall on the blueant part which was on my t-shirt's collar.

Unfortunately there doesn't seem to be many options for short cord earbuds around so i'll have to use a regular set and tie-up the cord.

★★★★★ **Good repolacement for Bluetooth**

By [Mitch10](#) on April 13, 2014

**Verified Purchase**

I got these as a replacement for a clip on Bluetooth receiver. The have much better sound than the ones that came with the cheap device and make it far more enjoyable to have clipped to my collar.

The earbuds seem well made and the cloth cover helps to keep them from getting tangled in my pack. I decided to get a second pair for an old Sansa player too. I'm pretty pleased with them!

★★★★★ **These Are Pretty Nice Earbuds Overall...**

By [Richard La Barca](#) on October 30, 2014

**Verified Purchase**

First, these earbuds have good sound and bass. And they produce good volume. You may have to adjust your player's EQ settings since these actually have much higher volume and bass for earbuds in this price range. After setting sound levels to your liking, I think you (as I) will be impressed with the sound quality.

Second, the build quality seems really good. They are made of steel rather than plastic and have a strong fabric cord. Also, I like that they put the left and right indicators on the left and right side of earbuds respectively, i.e., the left earbud has the "L" on the left side of earbud and the right earbud has the "R" on the right side of earbud. This makes it easy (without having to actually read the "L" or "R") to know which earbud is the left or right channel.

The minor shortcomings are the cord is quite short but accommodates most clip-ons to collar, pocket or upper button shirts. Also, there can be some cord noise when touched or when rubbing against something. This can be alleviated by using some sort of (twist)tie around the cords under your chin or around your neck.

Overall, I am very happy with these earbuds...I just wish they came in not only this short length but also medium short length.

★★★★★ **Impression after two weeks -- LOVE THEM**

By [N. Male](#) on August 28, 2014

I have gone thru a lot of ear buds, from ridiculously expensive (Bose - \$200) to incredibly cheap (\$2) to ones that are cheap and overpriced (O.K., I'll decline to name any companies, but they won't get my business anymore). The cheap ones rarely produce acceptable sound and always fail within 1 year (I'm being generous with the timeline). The expensive ones have never failed and produce exquisite sound to my ears -- my only complaint would be the cord tangling. So, imagine my surprise when a \$17 dollar pair of ear buds produced exquisite sound and seem to be substantial. I have only been using them for a few weeks, but I'm ready to order more styles from Far End Gear. The short

cord style is so perfect for clipping my MP3 player to my collar -- I don't understand why more companies don't make them.

Hidden sound gem.

AKG has been providing industry leadership and audio innovation to the music business for over 65 years. Having been involved in every aspect of some of the greatest music of all time, leading artists, producers and engineers have come to rely on AKG headphones in their quest for audio excellence. The AKG K323 XS is not, however, your typical AKG headphone. They're tiny. Real tiny. Yet, they take full advantage of AKG engineering excellence through their function and design. Which means that, despite their miniature size, they adhere to AKG standards for sound quality, comfort and versatility.

Despite their ultra-small, in-ear size – the smallest available with the greatest sound – their ultra-lightweight design makes them perfect for busy, connective-dependent lifestyles.

The AKG K323 XS brings you functionality and convenience in a miniature design. AKG never loses sight of the fact that it's all about sound quality and having round-the-clock access to it. It's how we've built our reputation – two ears at a time.

The AKG K323 XS is available in three versions: with a straight cable, with a three-button MFI remote/microphone that is compatible with the latest Apple™ devices, and with a one-button universal remote/microphone compatible with most Smartphones. These remotes allow you to answer and end calls, or play and pause music, without taking your headphones off.

## HIGHLIGHTS

- ▶ The smallest, lightest, in-ear headphone with the greatest sound
- ▶ High-end connectivity
- ▶ Award-winning, studio-quality AKG sound
- ▶ As portable as you are
- ▶ Unique, custom fit is key

  MFI and one-button remote versions

 Straight cable version

## K376

HIGH-PERFORMANCE IN-EAR HEADSET

Just one button connects  
you to the world.

Whether it's during your commute to work or during your morning jog, you have the perfect companion in the K376 in-ear headphones from AKG. With three sizes of ear sleeves, it channels signature AKG audio quality for your listening pleasure. A universal one-button remote lets you swap between your music and your smartphone with ease. Real metal housing and a closed-back design attest to the quality of build that the engineers at AKG adhere to. Specific Android® compatibility features an inline microphone that allows crystal clear voice communication. Available in blue and white, the K376 perfectly complements your life.

### HIGHLIGHTS

- ▶ One-button remote compatible with all smartphone devices
- ▶ Specific Android® compatibility
- ▶ Best for portable devices
- ▶ Inline microphone with control button suitable for most Android® models
- ▶ Real metal housing
- ▶ 3 sizes of ear sleeves included
- ▶ Closed-back design for best personal listening experience
- ▶ Carrying pouch included
- ▶ 2 color variations (Blue and White)

**AKG**  
by HARMAN

## K376

HIGH-PERFORMANCE IN-EAR HEADSET

### FEATURES AT A GLANCE

- ▶ **Award-winning, studio-quality AKG sound**  
Specially selected 9mm drivers and a closed-back design work together to deliver precision sound with superior acoustic dampening and enhanced bass response.
- ▶ **High-end connectivity**  
A 'one-button' universal inline remote with mic control allows you to play and pause music, answer and end calls while leaving your headphones on.
- ▶ **In-ear design with on-ear results**  
The K376's closed-back aluminum housing determines what gets in and out for the impression of much more elaborate over-ear headphones.
- ▶ **As portable as you are**  
It's unlikely you'll find any reason to take the K376's off – but if you do, they come with a cool, carrying pouch to protect and keep them safe when you're not using them.
- ▶ **Long-lasting comfort**  
The K376's lightweight design and smooth-fitting ear sleeves allow you to listen to your heart's content without any fatigue or decrease in listening pleasure.

### SPECIFICATIONS

Type	: Portable, studio-quality, in-ear headphones with multi-connectivity and an inline remote/microphone
System	: Dynamic
Frequency response	: 12 Hz to 24 kHz
Sensitivity	: 120dB

# K391 NC

HIGH PERFORMANCE, NOISE CANCELLING IN EAR HEADPHONES WITH  
IN LINE MICROPHONE AND DIGITAL ACTIVE NOISE CANCELLATION

**BLOCK NOISE, EXPERIENCE BEAUTY.**

AKG® K391 NC in-ear headphones turn a noisy space into a private concert or screening. Compact and easy to travel with, these noise-cancelling, in-ear headphones will make anything from a crowded airplane to a subway seem downright peaceful while delivering powerful, detailed sound directly to your ears. We've included a premium carrying bag, and an in-line microphone allows you to answer calls.

## SOLITUDE

- True AKG sound performance
- Active noise cancellation
- 35-hour playing time
- Closed-back design

## MAGNITUDE

- In-line microphone
- Carrying bag
- Flight adapter
- Frequency range: 12Hz to 24kHz

# KEY FEATURES

## K391 NC

Travel to your own theme song.

### FAMOUS AKG® SOUND QUALITY

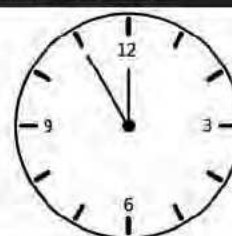

For 65 years, AKG Acoustics has been the leader in creating studio sound in headphones. We hold more than 1,400 patents for our groundbreaking products; and in 2010, we were awarded a GRAMMY® for technical achievement.

### ACTIVE NOISE CANCELLATION

Tiny microphones on the outside of each earpiece enable the AKG K391 NC headphones to detect the difference between the sounds that they're playing and the sounds coming from the world around them. The AKG K391 NCs then create exact waveforms to cancel out the unwanted noise, so all you hear is the music or audio being fed to you through the headphone jack.

### 35-HOUR PLAYING TIME

The batteries that power the active noise cancellation in the AKG K391 NC will last for 40 hours at a time. And the battery is easily rechargeable via a USB port, making recharging convenient in airports, planes and other locations - just plug it into your laptop. Two cables for different phone models are included.

### CLOSED-BACK DESIGN

AKG K391 NC in-ear headphones keep music in and noise out. Their closed-back design helps impede outside noise from entering your ears while also preventing the sounds you're hearing from leaking out for the outside world to hear.

### IN-LINE MICROPHONE

AKG K391 NC in-ear headphones have an in-line microphone that lets you make calls that are every bit as crisp and noise-free as the music you listen to on your smartphone.

### CARRYING BAG

Nothing slows down the listening process like having to undo a twisted Gordian knot of headphone cord. AKG K391 NC in-ear headphones come with a carrying pouch so you can store them safely and snugly without their ever becoming an unruly ball of tangles.

### FLIGHT ADAPTER

Few things make travel more tedious than trying to watch an in-flight movie with courtesy airline earphones. AKG K391 NC in-ear headphones come with an adapter that makes them compatible with nearly every airline allowing you to fully enjoy in-flight entertainment in AKG-quality sound.

# SPECIFICATIONS

## K391 NC

Specs that would impress even the toughest critics.

### What's included:

## • Overview

Audio-Technica brings its pro audio expertise to the design of Core Bass in-ear headphones. Proving that even a small earphone can produce an impressive bass response, Core Bass offers full and heavy tones for rock, electronica and bass-driven metal ũ without sacrificing clarity. These advanced-fit in-ears come equipped with snap-on, snap-off ear hooks for the latest word in comfort and wearing stability. Snap them on if you prefer an over-the-ear cord-fit engineered to keep the Core Bass :phones perfectly in place in the gym or out and about, regardless of your activity level. Snap them off if you prefer a more traditional fit, with the cord resting in front of the ear. The included travel-friendly cord wrap makes it easy to carry the in-ears without tangling the cord.

## • Overview

The ATH-WS77 Solid Bass headphones deliver incredibly full and textured bass, along with the astonishing clarity and fidelity for which Audio-Technica is renowned. Audio-Technica's sophisticated driver technology and superior components deliver exceptional power handling, maintaining clarity of sound throughout their extended range. The headphones feature 40 mm drivers for powerful sound and efficient signal transfer.

## • Features

- Newly developed Double Air Chamber System expands bass output for powerful bass without sacrificing audio clarity
- Large driver design (40 mm) reproduces outstanding sound
- Undesired vibrations are eliminated by direct-mounting the high-rigidity aluminum housing to the driver
- Acoustically sealed earpads minimize bass sound leakage
- Smooth, easily adjustable headband slider ensures a comfortable fit

## • Overview

Don't sacrifice great sound when you hit the gym. Audio-Technica's ATH-CKP500 active-fit in-ear headphones feature ergonomic C-shaped eartips that nestle naturally in the outer ear to hold the headphones securely in place. Their angled housings direct the cord behind the wearer's neck so it stays out of the way. In addition to standard sound isolating eartips, the ATH-CKP500 comes with newly designed ridged eartips that allow the user to hear ambient noise like traffic or other runners for safer use outdoors. The headphones have IPX5 Waterproof Certification\* that allows them to be washed after use. They are available in black, red, white and blue, and come with a cord clip and 2-ft.

(0.6 m) extension cord.

M·SERIES  
REMASTERED

Online reviewers, top audio professionals and cult followers have long agreed that the ATH-M50 is an unmatched combination of audio and build quality, whether in the studio or on the go. That award winning formula is embodied in the newly remastered M-Series line, with a model perfectly suited for every discerning ear.

**PURE. PROFESSIONAL. PERFORMANCE.**

# ATH-M50x

This is the most critically acclaimed model in the M-Series line, praised by top audio engineers and pro audio reviewers year after year. The ATH-M50x features the same coveted sonic signature, now with refined earpads and detachable cables. From large-aperture drivers to sound isolating earcups and robust construction, the M50x provides an unmatched experience for the most critical audio professionals.

- Critically acclaimed sonic performance praised by top audio engineers and pro audio reviewers
- Proprietary 45 mm large-aperture drivers with rare earth magnets and copper-clad aluminum wire voice coils
- Exceptional clarity throughout an extended frequency range, with deep, accurate bass response
- Circumaural design contours around the ears for excellent sound isolation in loud environments
- 90° swiveling earcups for easy, one-ear monitoring
- Professional-grade earpad and headband material delivers more durability and comfort
- Detachable cable (3 cables included)

Driver	45 mm
Magnet	Neodymium
Voice Coil	CCAW (Copper-clad aluminum wire)
Frequency Response	15 – 28,000 Hz
Maximum Input Power	1,600 mW at 1 kHz
Sensitivity	99 dB
Impedance	38 ohms
Weight	285 g (10 oz) without cable and connector

### Included Accessories

### Cables

# ATH-M40x

The high-performance ATH-M40x professional headphones are tuned flat for incredibly accurate audio monitoring across an extended frequency range. Your studio experience is enhanced with superior sound isolation and swiveling earcups for convenient one-ear monitoring. Engineered with pro-grade materials and robust construction, the M40x excels in professional studio tracking and mixing, as well as DJ monitoring.

- **Cutting-edge engineering and robust construction**
- **40 mm drivers with rare earth magnets and copper-clad aluminum wire voice coils**
- **Tuned flat for incredibly accurate sound monitoring across the entire frequency range**
- **Circumaural design contours around the ears for excellent sound isolation in loud environments**
- **90° swiveling earcups for easy, one-ear monitoring**
- **Professional-grade earpad and headband material delivers more durability and comfort**
- **Detachable cable (2 cables included)**

## Included Accessories

<b>Driver</b>	40 mm
<b>Magnet</b>	Neodymium
<b>Voice Coil</b>	CCAW (Copper-clad aluminum wire)
<b>Frequency Response</b>	15 – 24,000 Hz
<b>Maximum Input Power</b>	1,600 mW at 1 kHz
<b>Sensitivity</b>	98 dB
<b>Impedance</b>	35 ohms
<b>Weight</b>	240 g (8.5 oz) without cable and connector

## Cables

studio  
1.2 m – 3.0 m coiled

studio  
3.0 m straight

## ATH-M30x

With enhanced audio clarity and sound isolation, the ATH-M30x professional monitor headphones are tuned for highly detailed audio. Featuring strong mid-range definition, these versatile monitoring headphones are ideal in a variety of situations. Designed primarily for studio tracking and mixing, they offer added features for increased portability, making them a great choice for field recording.

- **Advanced build quality and engineering**
- **40 mm drivers with rare earth magnets and copper-clad aluminum wire voice coils**
- **Tuned for enhanced detail, with excellent mid-range definition**
- **Circumaural design contours around the ears for excellent sound isolation in loud environments**
- **Convenient single-side cable exit**

<b>Driver</b>	40 mm
<b>Magnet</b>	Neodymium
<b>Voice Coil</b>	CCAW (Copper-clad aluminum wire)
<b>Frequency Response</b>	15 – 22,000 Hz
<b>Maximum Input Power</b>	1,300 mW at 1 kHz
<b>Sensitivity</b>	96 dB
<b>Impedance</b>	47 ohms
<b>Cable</b>	3.0 m (9.8'), left-side exit
<b>Weight</b>	220 g (7.8 oz) without cable and connector
<b>Included Accessories</b>	1/4" (6.3 mm) screw-on adapter, pouch

## ATH-M20x

The ATH-M20x professional monitor headphones are a great introduction to the critically acclaimed M-Series line. Modern design and high-quality materials combine to deliver a comfortable listening experience, with enhanced audio and effective isolation. An excellent choice for tracking and mixing.

- **Advanced build quality and engineering**
- **40 mm drivers with rare earth magnets and copper-clad aluminum wire voice coils**
- **Tuned for enhanced low-frequency performance**
- **Circumaural design contours around the ears for excellent sound isolation in loud environments**
- **Convenient single-side cable exit**

<b>Driver</b>	40 mm
<b>Magnet</b>	Neodymium
<b>Voice Coil</b>	CCAW (Copper-clad aluminum wire)
<b>Frequency Response</b>	15 – 20,000 Hz
<b>Maximum Input Power</b>	700 mW at 1 kHz
<b>Sensitivity</b>	96 dB
<b>Impedance</b>	47 ohms
<b>Cable</b>	3.0 m (9.8'), left-side exit
<b>Weight</b>	190 g (6.7 oz) without cable and connector
<b>Included Accessories</b>	1/4" (6.3 mm) snap-on adapter

CHOOSE YOUR COLOUR

IN CITIES

## PORTABLE QUALITY

## GREAT SOUND THROUGH THE CITY

Whether you're cruising through the city on your bike – or chilling in the park listening to the latest tunes, Form 21 is a great companion.

Form 21 delivers an impressive and honest sound performance.

The soundscape is well-defined – it's a combination of a good bass, a focused middle and precise highs. The ambition is simple: To bring you sound the way the artists intended it – with no twinks or over-emphasized bass.

The light weight of Form 21 combined with its comfortable fit makes the headphones extremely pleasant to wear – even for that 3 hour long DJ-set you just discovered online.

The microphone and remote are aptly placed on the cord just below your cheek – giving you control of your phone with a single touch or two.

IN PART

# A TRUE DESIGN ICON

## FEATURED AT MOMA

Form 2 was designed more than 30 years ago – in 1983 by the then 23-year old Stevie McGugan. It hit the streets in 1985 to instant critical success – so much in fact that in 1992 it was included in the permanent collection at the Museum of Modern Art (MoMA) in New York.

Today it's the longest living headphone in the world – and widely considered a true design icon.

While we're really proud to have it displayed in a museum and hailed as a piece of art, we'd much rather see it on your head.

## THE LEGACY LINE-UP

HISTORY OF B&O HEADPHONES

Bang & Olufsen introduced their first headphone, U70, back in 1978. Not many audio manufacturers can claim that many years of experience on the market. This means that principles introduced nearly four decades ago have been refined and developed further ever since.

Take a trip down memory lane and experience the development from Bang & Olufsen the headphones in the early years until today, marked by the launch of two completely new headphones.

# HARMAN KARDON® HEADPHONES **AE**

Introducing the AE model in-ear headphones, part of the first-ever line of Harman Kardon® headphones. Blending sophistication and simplicity, acoustics and aesthetics, AE headphones embody the essence of "Beautiful Sound."

Beautiful sound. To go.

Drawing from a rich heritage of acoustic innovation, Harman Kardon® AE headphones feature an aluminum-alloy housing for extended bass and true low-frequency reproduction. Optimized 3/8-inch (9-millimeter) drivers deliver extended bass response, wide dynamic levels, high sound-pressure levels and sonic clarity at all volume levels. The in-ear headphones include silicone sleeves in three sizes for optimum comfort and an Apple three-button remote with built-in microphone for phone calls. Lightweight and comfortable, AE headphones let you take Beautiful Sound with you wherever you go.

From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

## Highlights

- Sophisticated, modern design
- Optimized driver system
- Aluminum alloy housing
- Sonic clarity and accuracy even at low volume levels
- Silicone sleeves and Comply™ foam sleeves
- Apple three-button remote with built-in microphone
- Heavy cable and durable plug

**Comply™**  
FOAM TIPS

# KEY FEATURES

beautiful/sound  
harman/kardon  
by HARMAN

## HARMAN KARDON® HEADPHONES AE

A triumph of craftsmanship and audio engineering, Harman Kardon headphones are designed for those with an eye for style and an ear for sound.

### Sophisticated, modern design

Harman Kardon AE headphones offer high-tech performance wrapped in an elegant package and interface. With their blend of aluminum and black, the AEs' design and function complement Apple products while reinforcing the sophisticated elegance of the Harman Kardon brand.

### Optimized driver system

Premium 3/8-inch (9-millimeter) drivers generate an excellent frequency response (16Hz – 20kHz) and are optimized to the aluminum housing. They produce wide dynamic range, high sound-pressure levels and extended bass response.

### Aluminum alloy housing

The housing on the AE headphones is made of an aluminum alloy that provides superior acoustic dampening. It extends the bass range with true low-frequency reproduction. The housing also reduces the unwanted resonances that can compromise sound quality.

### Sonic clarity and accuracy even at low volume levels

The AE headphones' acoustic engineering and passive noise reduction mean that you can hear music and other audio content clearly at low volume levels, so you can enjoy all the music definition without all the volume – and that's safer for your ears.

### Silicone sleeves

Three pairs of sleeves (small, medium and large) are included. The choice of size ensures maximum comfort – and minimum ambient noise – in the ear canal.

### Comply™ foam sleeves

As a one-size-fits-all alternative to silicone sleeves, AE headphones also include a pair of Comply™ sleeves. The moldable foam provides a comfortable fit as well as noise reduction.

### Apple three-button remote with built-in microphone

Made specifically for use with iPhone and iPod, the streamlined AE remote offers familiar controls for audio playback and phone calls.

### Heavy cable and durable plug

The cable on the AE headphones features a metal plug, and the elastomer-coated cable resists tangling. High-quality materials help the cable and plug last longer.

### Premium carrying case

Beautiful sound is worth protecting. AE headphones come with a carrying case that keeps the silicone sleeves from getting lost and reduces cable tangling.

# HARMAN KARDON® HEADPHONES **NI**

Introducing the NI model in-ear headphones, part of the first-ever line of Harman Kardon® headphones. Blending sophistication and simplicity, acoustics and aesthetics, NI headphones embody the essence of "Beautiful Sound."

Beautiful sound. To go.

Drawing from a rich heritage of acoustic innovation, Harman Kardon® NI headphones employ optimized drivers that produce accurate bass and sound clarity even at low volumes. The in-ear headphones feature silicone sleeves in three sizes for optimum comfort and an Apple three-button remote with built-in microphone for phone calls. The rectangular shape of the black sculpted housing complements the style of companion iPhone, iPad and iPod products. Lightweight and comfortable, NI headphones let you take Beautiful Sound with you wherever you go.

From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

## Highlights

- Sophisticated, modern design
- Optimized driver system
- Sonic clarity and accuracy even at low volume levels
- Black sculpted, beveled housing
- Silicone sleeves
- Apple three-button remote with built-in microphone
- Heavy cable and durable plug

Made for

iPod

iPhone

iPad

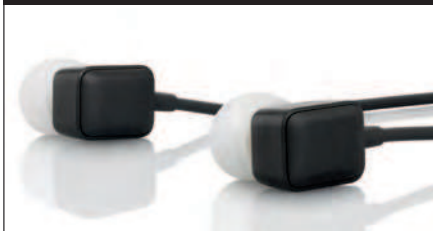

# KEY FEATURES

beautiful/sound  
harman/kardon  
by HARMAN

## HARMAN KARDON® HEADPHONES NI

A triumph of craftsmanship and audio engineering, Harman Kardon headphones are designed for those with an eye for style and an ear for sound.

### Sophisticated, modern design

Harman Kardon NI headphones offer high-tech performance wrapped in an elegant package and interface. With their blend of aluminum and black, the NIs' design and function complement Apple products while reinforcing the sophisticated elegance of the Harman Kardon brand.

### Optimized driver system

High-performance 3/8-inch (9-millimeter) drivers generate an excellent frequency response (20Hz – 20kHz), wide dynamic range and high sound-pressure levels. They also produce accurate bass at any volume level.

### Sonic clarity and accuracy even at low volume levels

The NI headphones' acoustic engineering and passive noise-reduction mean that you can hear music and other audio content clearly at low volume levels, so you can enjoy all the music definition without all the volume – and that's safer for your ears.

### Black sculpted, beveled housing

The rectangular housing complements the shape of companion iPhone, iPad and iPod products, while the beveled surface underneath the housing enhances in-ear comfort.

### Silicone sleeves

Three pairs of sleeves (small, medium and large) are included. The choice of size ensures maximum comfort – and minimum ambient noise – in the ear canal.

### Apple three-button remote with built-in microphone

Made specifically for use with iPhone and iPod, the streamlined remote offers familiar controls for audio playback and phone calls.

### Heavy cable and durable plug

The cable on the NI headphones features a metal plug, and the elastomer-coated cable resists tangling. High-quality materials help the cable and plug last longer.

### Carrying case

Beautiful sound is worth protecting. Harman Kardon NI headphones come with a carrying case that keeps the silicone sleeves from getting lost and reduces cable tangling.

# PERFECT FIT

When it comes to noise isolation and great sound, fit matters.

## COMPLETE COMFORT

For maximum comfort and up to 26 dBs of noise isolation, The UE 900s comes with nine pairs of specially designed ear cushions: six sizes of silicon cushions and three sizes of memory foam cushions, each designed with a large-bore opening.

## CHOOSE YOUR CORD

The UE 900s comes with two detachable, braided cables—one with a mic and one without. Use the cable with on-cord controls to answer calls, change tracks and adjust volume. Use the cable without mic or controls when you are on stage or in the studio.

## MOLDABLE EAR LOOPS

Whether you're dancing in your room or jamming on stage, you need your earphones to stay in place. The UE 900s features bendable memory loops to help them stay in place.

## technical assistance

### customer service

If anything is missing or damaged, or if your headphones fail to operate, contact the authorized Polk dealer where you made your purchase, or contact Polk Customer Service immediately at 1-800-377-7655 (M-F, 9:00 AM-5:30 PM EST, USA & Canada only). If, after following the setup directions, you experience difficulty, please double-check that you followed the instructions correctly. Should you isolate the problem to a defect in the headphones, contact the authorized Polk dealer where you made your purchase, or contact Polk Customer Service by phone or via email: [polks@polkaudio.com](mailto:polks@polkaudio.com). Outside the USA & Canada, call +1-410-358-3600.

### product disposal

Certain international, national and/or local laws and/or regulations may apply regarding the disposal of this product. For further detailed information, please contact the retailer where you purchased this product or the Polk Importer/Distributor in your country.

## important performance & safety tips

### WARNING: listen carefully

Polk headphones are capable of playing at extremely high volume levels, which could cause serious or permanent hearing damage. Polk, Inc. accepts no liability for hearing loss, bodily injury or property damage resulting from the misuse of its products. Besides, we want you to keep your hearing so you'll buy more Polk products.

### enjoy your Polk headphones responsibly

It's a very bad idea, and in many jurisdictions against the law, to operate a vehicle while wearing headphones. Crossing streets without being able to hear what's going on around you can be dangerous as well. Use your good common sense and never play headphones in an environment, or during an activity, that requires your complete attention. The sounds you hear around you could save your life.

### how loud is too loud?

Polk headphones are capable of reproducing excellent musical detail, even at lower volume levels. You should limit prolonged exposure to volumes that exceed 85 decibels (dB). Regular exposure to sound over 100 dB for more than 1 minute risks permanent hearing loss. For more about safe volume levels, go to the Occupational Health and Safety Administration (OSHA) guidelines at [www.osha.gov](http://www.osha.gov).

## eartip selection

### in-ear headphone

Eartips do more than help your headphones stay in place. Properly fitted eartips help you to eliminate extraneous noise, experience greater bass response and enjoy better tonal balance. Eartips that fit correctly also feel comfortable. A good fit sounds easy to achieve, and it is. But no two person's ears are exactly the same. So we've included eartips of different sizes and designs to ensure your in-ear headphones sit securely and comfortably while optimizing their performance. The way to discover which eartips work best for you is to try your headphones with all of them. Start first with the small eartips, then try the next largest pair and so on. You want a comfortable fit with a good seal so the headphone won't fall from your ear.

**hint:** Don't be afraid to use different eartips in each ear. No two ears are exactly the same size.

## connect your headphones

### listen

But first... turn down the volume on your music player before inserting your headphones. Plug the headphone cable into the 1/8" (3.5 mm) stereo jack on your music player.

**important:** Headphones have a left and right orientation. They use the markings "L" and "R" to indicate which earpiece goes in which ear. You can also use the cable colors to determine left and right orientation. The colored cable is always the left earpiece; the black or white cable is always the right earpiece.

## care & storage

### how to clean eartips & headphones

**important:** Always remove the eartips from your headphones before cleaning them and thoroughly dry them before putting them back onto the headphone. Use a damp cloth to clean the headphone. DO NOT get any liquid in the headphone.

Use warm water and a mild dish soap on a damp cloth to remove dirt and earwax from the eartip. DO NOT use harsh cleaning agents. Make sure the eartips are completely dry before putting them back on the headphones. Also, when you put the eartips on the headphones, make sure they seat completely.

### storing your headphones

Store your headphones in their protective case. Store the case in a clean, dry environment. DO NOT expose your headphones to extreme heat or cold, high humidity or liquids. It's a really bad idea to pull on the headphone cable to remove the earpieces from your ears or the plug from your player. Don't do it.

## limited one year warranty

Polk, Inc., warrants, to the original retail purchaser only, that this Polk Headphone Product will be free from defects in material and workmanship for a period of one (1) year from the date of original retail purchase from a Polk Authorized Dealer. This warranty will terminate automatically prior to its stated expiration if the original retail purchaser sells or transfers the product to any other party.

To allow Polk to offer the best possible warranty service, please register your new product online at: [www.polkaudio.com/registration](http://www.polkaudio.com/registration) or call Polk Customer Service at 800-377-7655 in the USA and Canada (outside the USA: +1-410-358-3600) within ten (10) days of the date of original purchase. Be sure to keep your original purchase receipt.

Defective Products must be shipped, together with proof of purchase, prepaid insured to the Polk Authorized Dealer from whom you purchased the Product, or to the Factory at 1 Viper Way, Vista, California 92081. Products must be shipped in the original shipping container or its equivalent; in any case the risk of loss or damage in transit is to be borne by you. If upon examination at the Factory or Polk Authorized Dealer it is determined that the unit was defective in materials or workmanship at any time during this Warranty period, Polk or the Polk Authorized Dealer will, at its option, repair or replace this Product at no additional charge, except as set forth below. All replaced parts and Products become the property of Polk. Products replaced or repaired under this warranty will be returned to you, within a reasonable time, freight prepaid.

This warranty does not include service or parts to repair damage caused by accident, disaster, misuse, abuse, negligence, inadequate packing or shipping procedures, commercial use, voltage inputs in excess of the rated maximum "of the unit, cosmetic appearance not directly attributable to defect in materials or workmanship, or service, repair, or modification of the Product which has not been authorized or approved by Polk. This warranty shall terminate if the Serial number on the Product has been removed, tampered with or defaced.

This warranty is in lieu of all other expressed warranties. If this Product is defective in materials or workmanship as warranted above, your sole remedy shall be repair or replacement as provided above. In no event will Polk, Inc. be liable to you for any incidental or consequential damages arising out of the use or inability to use the Product, even if Polk, Inc. or a Polk Authorized Dealer has been advised of the possibility of such damages, or for any claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you.

All implied warranties on this Product are limited to the duration of this expressed Warranty. Some states do not allow limitation on how long an implied Warranty lasts, so the above limitations may not apply to you. This Warranty gives you specific legal rights, and you also may have other rights which vary from state to state.

This Warranty applies only to Products purchased in Canada, the United States of America, its possessions, and U.S. and NATO armed forces exchanges and clubs.

The Warranty terms and conditions applicable to Products purchased in other countries are available from the Polk Authorized Distributors in such countries.

---

*Thank you for your Polk purchase. If you have a question or comment, please feel free to call us or email us. In North America and Canada, call Polk Customer Service 800-377-7655 (M-F, 9:00 AM-5:30 PM EST) or via email [polkcs@polkaudio.com](mailto:polkcs@polkaudio.com). Outside the US, call +1-410-358-3600.*

## assistance technique

### service à la clientèle

S'il manque des pièces, si vous découvrez des avaries ou si vos écouteurs ne fonctionnent pas, contactez le Service à la clientèle de Polk immédiatement au 1-800-377-7655 (L-V, 9h à 17h30, H.E. Canada et aux É.-U. seul.). Si, après avoir suivi les instructions, vous éprouvez toujours des difficultés, assurez-vous que vous avez bien suivi les instructions. Si vous en concluez que le problème est relié aux écouteurs, communiquez avec votre détaillant agréé Polk ou contactez le Service à la Clientèle de Polk par téléphone ou par courriel: [polkcs@polkaudio.com](mailto:polkcs@polkaudio.com). À l'extérieur du Canada ou des É.-U., composez le: +1-410-358-3600.

### récupération du produit

Certaines lois ou certains règlements internationaux, nationaux et/ou régionaux pourraient s'appliquer à la récupération de ce produit. Pour plus d'information, communiquez avec votre revendeur Polk ou avec l'importateur/distributeur Polk dans votre pays.

## conseils importants: performance et sécurité

### AVERTISSEMENT: écoutez bien!

Les écouteurs Polk sont capables de générer des niveaux de volume extrêmement élevés pouvant causer des dommages auditifs graves ou permanents. Polk Inc. ne peut être tenue responsable de perte d'ouïe, de blessure ou de dommages matériels causés par l'usage abusif de ses produits. Protégez bien vos oreilles, elles sont irremplaçables!

### utilisez vos écouteurs Polk de façon responsable

Il est déconseillé, et en plusieurs régions il est illégal, de conduire un véhicule en portant des écouteurs. Il peut également être très dangereux de traverser la rue sans pouvoir entendre les sons ambiants. N'utilisez jamais vos écouteurs dans un endroit ou durant une activité qui requiert toute votre attention—la vigilance auditive pourrait sauver votre vie.

### quand le volume est-il trop élevé?

Même à bas volume, les écouteurs Polk peuvent reproduire une excellente précision musicale. Limitez l'exposition prolongée à des niveaux sonores excédant 85 décibels (dB). Une exposition régulière de plus d'une minute à un niveau sonore de plus de 100dB peut causer une perte d'ouïe permanente. Pour plus d'information sur les niveaux sécuritaires de volume sonore, visitez le site de l'OSHA (Occupational Health and Safety Administration) à l'adresse web: <http://www.osha.gov>.

## choix de l'embout auriculaire

### écouteurs intra-auriculaires

Les embouts auriculaires font plus que garder vos écouteurs en place. Lorsqu'ils sont bien ajustés, ils aident à réduire les sons ambiants, à optimiser les graves et à améliorer l'équilibre sonore. Des embouts bien ajustés sont également plus confortables. Mais aucune oreille n'est identique à une autre. C'est pourquoi nous avons inclus des embouts auriculaires de tailles et de formes différentes pour assurer que vos écouteurs s'ajustent confortablement tout en optimisant leur performance. Pour déterminer quels embouts vous conviennent, essayez-les tous. Commencez avec les plus petits puis passez à la grosseur suivante... et ainsi de suite. Pour éviter que vos écouteurs se délogent de vos oreilles, recherchez un ajustement serré mais confortable.

**conseil :** Essayez différents embouts dans chaque oreille car l'oreille gauche n'est jamais identique à l'oreille droite.

## connectez vos écouteurs

### écartez

Baissez d'abord le volume de votre lecteur avant de mettre vos écouteurs. Insérez le câbles des écouteurs dans la prise 1/8" (3,5mm) stéréo de votre lecteur.

**important :** Les écouteurs ont une orientation gauche-droite. Les lettres «L» (gauche) et «R» (droite) indiquent dans quelle oreille chaque bouton doit être placé. Le câble est également codé gauche-droite : le conducteur coloré est toujours celui du bouton gauche et le conducteur noir ou blanc est toujours celui du droit.

## entretien et rangement

### comment nettoyer les écouteurs et les embouts auriculaires

**Important :** Retirez toujours les embouts de vos écouteurs avant de les nettoyer et séchez-les complètement avant de les réinstaller. Utilisez un chiffon humide pour nettoyer les écouteurs. NE LAISSEZ AUCUN LIQUIDE pénétrer les écouteurs.

Utilisez de l'eau tiède et du détergent à vaisselle doux pour nettoyer les embouts et en retirer le cérumen. N'UTILISEZ JAMAIS de nettoyeurs caustiques. Assurez-vous que les embouts sont complètement secs avant de les réinstaller sur les écouteurs; et lorsque vous les réinstallez, assurez-vous qu'ils sont bien engagés sous la bride de l'écouteur.

### rangement de vos écouteurs

Rangez vos écouteurs dans leur étui protecteur. Rangez l'étui dans un endroit sec et propre. N'EXPOSEZ PAS vos écouteurs au froid ou à la chaleur extrême, à l'humidité excessive ou aux liquides. Il est déconseillé de tirer sur le câble pour déconnecter vos écouteurs du lecteur ou pour les retirer de vos oreilles.

## garantie limitée d'un an

Cette garantie de Polk Inc. est valide pour l'acheteur au détail original seulement. La garantie sera résiliée automatiquement avant sa date d'expiration stipulée si l'acheteur au détail original vend ou cède le produit à tout autre partie.

Polk Inc. garantit—à l'acheteur au détail original seulement—que ce produit Polk, nommément les écouteurs, sera exempt de tout défaut attribuable aux pièces d'origine et à la main-d'œuvre pour une période de un (1) an à partir de la date de l'achat au détail original chez un revendeur agréé Polk.

Pour permettre à Polk de vous offrir le meilleur service de garantie possible, veuillez enregistrer votre nouveau produit en ligne : [www.polkaudio.com/registration](http://www.polkaudio.com/registration), ou communiquez avec le Service à la clientèle de Polk au 1-800-377-7655 (Canada et É.-U. seul.)—(hors du Canada et des É.-U., +1 410-358-3600), dans les dix (10) jours suivant la date de l'achat original. Assurez-vous de conserver le reçu de votre achat original.

Les produits défectueux doivent être expédiés, avec une preuve d'achat, francs de port et dûment assurés, au revendeur agréé Polk de qui vous avez acheté le produit, ou à l'usine Polk, à l'adresse : 1 Viper Way, Vista, California 92081. Les produits doivent être expédiés dans leur carton d'expédition original ou dans un contenant équivalent. En toute circonstance le propriétaire doit assumer tout risque de perte ou de dommage lors du transit.

Si, suite à l'examen du produit à l'usine Polk ou chez le revendeur agréé Polk, il est déterminé que la défectuosité est imputable aux matériaux d'origine ou à la main-d'œuvre au cours de la période de la garantie spécifiée, Polk ou le revendeur Polk réparera ou remplacera, à sa guise, le produit sans frais additionnels sauf dans les cas décrits ci-dessous. Toute pièce ou produit remplacé devient la propriété de Polk. Les produits réparés ou remplacés sous la garantie vous seront expédiés francs de port dans un délai raisonnable.

Cette garantie n'inclut pas le service ou les pièces nécessaires à la réparation des dommages provoqués par accident, désastre, abus, négligence, mode d'expédition inapproprié ou emballage inadéquat, utilisation commerciale, tensions supérieures au maximum prescrit pour l'unité, détérioration de l'aspect visuel de l'unité non directement attribuable à un défaut de pièces d'origine ou de main-d'œuvre, ou par le service, la réparation, ou toute modification du produit n'ayant pas été autorisé ou approuvé par Polk. Cette garantie sera annulée si le numéro de série sur le produit a été retiré, altéré ou falsifié.

Cette garantie prend préférence sur toute autre garantie énoncée. Si la défectuosité de ce produit est imputable aux pièces d'origine ou à la main-d'œuvre selon les conditions de la garantie exprimées ci-dessus, votre seul recours sera la réparation ou le remplacement selon les conditions décrites ci-dessus. Dans aucun cas Polk, Inc. pourra-t-elle être tenue responsable de tout dommage accessoire ou indirect causé par l'utilisation ou par l'incapacité d'utilisation du produit, même si Polk, Inc. ou un revendeur agréé Polk, a été avisé de la possibilité de tel dommage, ou pour toute réclamation par tout autre partie. Certains états ne permettant pas l'exclusion ou la limitation des dommages indirects, les limitations et exclusions exprimées ci-dessus pourraient ne pas s'appliquer dans votre cas.

Toutes les garanties tacites sur ce produit sont limitées à la durée de la garantie énoncée. Certains états ne permettant pas la limitation de la durée d'une garantie tacite, les limitations ci-dessus pourraient ne pas s'appliquer dans votre cas. Cette garantie vous accorde des droits légaux spécifiques; vous pourriez également avoir d'autres droits pouvant varier d'état en état.

Cette garantie s'applique seulement aux produits achetés au Canada, aux États-Unis d'Amérique et ses possessions, et dans les clubs et d'échange des forces armées des É.-U. et de l'OTAN.

Les modalités et les conditions de garantie applicables aux produits achetés dans d'autres pays sont disponibles chez les distributeurs agréés Polk établis dans ces pays.

---

Merci d'avoir choisi Polk si vous avez des questions ou des commentaires, n'hésitez pas à communiquer avec nous par courriel à l'adresse [polkcs@polkaudio.com](mailto:polkcs@polkaudio.com)—ou par téléphone au 800-377-7655 (L-V 9h-17h30 HE, Canada et É.U. seul.); à l'extérieur des É.-U. et du Canada, composez le +1-410-358-3600.

## asistencia técnica

### servicio al cliente

Si algo falta o se ha dañado, o si sus auriculares no funcionan, avise inmediatamente al Servicio al cliente de Polk llamando al 1-800-377-7655 (de lunes a viernes de 9:00 AM a 5:30 PM, hora Este, sólo EE.UU. y Canadá). Si después de seguir las instrucciones de configuración tiene dificultades, vuelva a consultar las instrucciones para asegurarse de haberlas seguido correctamente. Si determina que el problema se debe a un defecto de los auriculares, comuníquese con el distribuidor autorizado de Polk donde los compró o con el Servicio al cliente de Polk por teléfono o correo electrónico: polkcs@polkaudio.com. Fuera de Estados Unidos y Canadá, llame al +1-410-358-3600.

### desecho del producto

Es posible que ciertas leyes y/o reglamentos internacionales y nacionales y/u locales se apliquen al desecho de este producto. Para obtener información más detallada, comuníquese con el minorista al cual le compró el producto o al importador o distribuidor de Polk en su país.

## sugerencias importantes sobre seguridad y fidelidad

### advertencia: escuche cuidadosamente

Los auriculares de Polk son capaces de reproducir sonido a volúmenes extremadamente altos, lo cual puede causar daño grave o permanente al oído. Polk, Inc. no acepta ninguna responsabilidad por pérdida del oído, lesiones corporales o daños a la propiedad producidos por el uso inadecuado de sus productos. Además, deseamos que conserve su oído para que pueda comprar más productos Polk.

### disfrute responsablemente de los auriculares Polk

Es pésima idea, y en muchas jurisdicciones ilegal, manejar un vehículo con los auriculares puestos. Cruzar la calle sin poder oír lo que ocurre a su alrededor también puede ser peligroso. Tenga sentido común y nunca se ponga los auriculares en un ambiente o durante una actividad que requiera toda su atención. Los sonidos que lo rodean pueden salvarle la vida.

### ¿cuán fuerte es demasiado fuerte?

Los auriculares de Polk son capaces de reproducir excelente detalle musical aun a bajo volumen. Limite la exposición prolongada a volúmenes que superan 85 dB. Exponerse con regularidad a sonidos de más de 100 dB durante más de un minuto implica un riesgo de pérdida permanente del oído. Para obtener más información sobre seguridad en el volumen, vea las pautas de la Administración de Salud y Seguridad Ocupacional (Occupational Health and Safety Administration, OSHA) en [www.osha.gov](http://www.osha.gov).

## selección de puntas de auricular

### auriculares deportivos de canal auditivo

Las puntas de auricular sirven no sólo para mantener los auriculares en posición. Correctamente ajustadas, estas puntas eliminan los ruidos externos y producen una mejor respuesta de bajos y un mejor balance tonal. Las puntas de auricular correctamente ajustadas también son cómodas. Parece fácil lograr un buen ajuste, y lo es, pero cada oído tiene su propia forma, de modo que hemos incluido puntas de auricular de diferentes tamaños y diseños para que estos auriculares se asienten firme y cómodamente y al mismo tiempo optimicen la fidelidad del sonido. La manera de determinar cuáles son las mejores puntas de auricular es probárselas todas. Comience con las pequeñas y siga con pares de puntas cada vez más grandes. Se trata de lograr un ajuste cómodo con un buen sello para que el auricular no se salga del oído.

**consejo:** No tema utilizar puntas de auricular de diferentes tamaños en cada oído. Cada oído tiene su propia forma y tamaño.

## conecte los auriculares

### escuche

Pero primero... bájele el volumen al reproductor de música antes de ponerse los auriculares. Enchufe el cable de los auriculares en el conector estereofónico de 1/8 plg. (3.5 mm) de su reproductor de música.

**importante:** Los auriculares tienen orientación izquierda y derecha; es decir, tienen una letra L (izquierda) y una letra R (derecha) para indicar qué auricular va en qué oído. También puede guiarse por los colores del cable para determinar la orientación izquierda o derecha. El cable de color corresponde siempre al auricular izquierdo; el cable blanco o negro corresponde siempre al auricular derecho.

## cuidado y almacenamiento

### modo de limpieza de las puntas de auricular y los auriculares

**importante:** Quiteles siempre las puntas a los auriculares antes de limpiarlos y séquelas completamente antes de volver a ponérselas. Limpie cada auricular con un paño húmedo. NO deje que entre nada líquido en ninguno de los auriculares.

Quiteles la suciedad y el cerumen a las puntas de auricular con agua tibia y un detergente de platos ligero en un paño húmedo. NO las limpie con limpiadores fuertes. Las puntas de auricular deben estar completamente secas antes de ponérselas a los auriculares. Además, cuando vuelva a ponérselas, asegúrese de que se asienten completamente.

### almacenamiento de los auriculares

Guarde sus auriculares en su estuche protector. Guárdelos en un lugar limpio y seco. NO los exponga a extremos de calor o frío, altas temperaturas o líquidos. Es pésima idea jalar el cable para quitarse las puntas de auricular de los oídos o el enchufe del reproductor de música. No lo haga.

## technische unterstützung

### kundendienst

Sollte etwas fehlen oder beschädigt sein, oder sollte Ihr Kopfhörer oder Ohrhörer nicht funktionieren, wenden Sie sich bitte sofort an den Kundendienst von Polk unter 1-800-377-7655 (M-F, 9:00 bis 17:30 h, nur USA und Kanada). Wenn Sie Probleme haben, nachdem Sie den Anweisungen gefolgt sind, sollten Sie sicherstellen, dass Sie die Anweisungen genau befolgt haben. Sollte sich das Problem auf einen Fehler am Kopfhörer oder Ohrhörer zurückführen lassen, wenden Sie sich bitte an den autorisierten Polk-Händler, bei dem Sie das Produkt gekauft haben, oder wenden Sie sich per Telefon oder E-Mail an den Kundendienst von Polk: [polcs@polkaudio.com](mailto:polcs@polkaudio.com). Außerhalb der USA und Kanadas rufen Sie bitte +1-410-358-3600 an.

### entsorgung des produkts

Die Entsorgung des Produkts kann bestimmten internationalen, nationalen und/oder örtlichen Vorschriften unterliegen. Nähere Informationen erhalten Sie von dem Fachhändler, bei dem Sie das Produkt gekauft haben, oder von dem für Ihr Land zuständigen Polk-Importeur/Vertriebshändler.

## wichtige leistungs- und sicherheitstipps

### WARNUNG: vorsicht beim zuhören

Polk-Kopfhörer können extrem hohe Lautstärkepegel erzeugen, die schwere oder permanente Hörschäden verursachen könnten. Polk, Inc. ist für auf den Missbrauch seiner Produkte zurückzuführende Hörschäden, Verletzungen oder Sachschäden nicht haftbar. Zudem möchten wir, dass Sie weiterhin gut hören, damit Sie Polk-Produkte kaufen.

### gehen sie mit ihrem Polk -kopfhörer vernünftig um

Es ist eine ganz schlechte Idee (und vielerorts verboten), beim Fahren einen Kopfhörer zu tragen. Es ist auch gefährlich, eine Straße zu überqueren, ohne hören zu können, was um Sie herum vorgeht. Gehen Sie vernünftig vor und verwenden Sie den Kopfhörer nie in einer Umgebung oder bei einer Aktivität, die Ihre ganze Aufmerksamkeit erfordert. Die Umgebungsgeräusche könnten Ihr Leben retten.

### wie laut ist zu laut?

Polk-Kopfhörer können auch bei niedrigen Lautstärken hervorragend musikalische Details wiedergeben. Sie sollten sich nicht zu lange Lautstärken über 85 Dezibel (dB) aussetzen. Wenn man regelmäßig über 1 Minute lang Lautstärken von über 100 dB hört, können permanente Hörschäden auftreten. Weitere Informationen über sichere Lautstärkepegel finden Sie in den Richtlinien der Occupational Health and Safety Administration (OSHA) unter [www.osha.gov](http://www.osha.gov).

## auswahl der ohrpolster

### ohrkanalhörer

Ohrpolster bieten mehr als nur einen sicheren Sitz. Ohrpolster der richtigen Größe helfen dabei, Außengeräusche zu eliminieren, sowie einen besseren Bass und eine bessere Klangbalance zu bieten. Ohrpolster der richtigen Größe sind auch bequemer. Es ist gar nicht so schwer, einen guten Sitz zu erreichen. Aber jeder von uns hat andere Ohren. Deshalb haben wir Ohrpolster verschiedener Größen und Formen beigelegt, um sicherzustellen, dass Ihr Ohrhörer sicher und bequem sitzt und eine optimale Klangleistung garantiert. Sie sollten alle Ohrpolster mit dem Ohrhörer ausprobieren, um zu entdecken, welche Ihnen am besten passen. Beginnen Sie mit den kleinsten Ohrpolstern und probieren Sie dann jeweils die größeren aus. Sie sollten einen bequemen Sitz mit einer guten Passform kombinieren, damit der Ohrhörer nicht aus Ihrem Ohr fällt.

**hinweis:** Sie können durchaus zwei unterschiedliche Ohrpolster verwenden. Oft sind beide Ohren verschieden groß.

## anschluss des ohrhörers

### zuhören

Aber vor dem Anschließen des Ohrhörers sollten Sie die Lautstärke am MP3-Player niedriger stellen. Stecken Sie das Ohrhörerkabel in die 3,5-mm-Stereobuchse am MP3-Player.

**wichtig:** Ohrhörer haben eine Links-/Rechts-Ausrichtung. Die Markierungen „L“ und „R“ zeigen, welcher Hörer in welches Ohr geht. Sie sehen die Links-/Rechts-Ausrichtung auch an der Kabelfarbe. Das farbige Kabel ist immer der linke Hörer, das schwarze oder weiße der rechte.

## pflege und lagerung

### reinigung von ohrpolstern und ohrhörern

**wichtig:** Nehmen Sie die Ohrpolster vor dem Reinigen immer vom Ohrhörer ab und trocknen Sie sie gründlich, bevor Sie sie wieder aufstecken. Reinigen Sie den Ohrhörer mit einem feuchten Tuch. Lassen Sie NIE eine Flüssigkeit in den Ohrhörer eindringen.

Verwenden Sie warmes Wasser und ein mildes Geschirrspülmittel auf einem feuchten Tuch, um Schmutz und Ohrenschnitzmal vom Ohrpolster zu entfernen. Verwenden Sie NIE scharfe Reinigungsmittel. Stellen Sie sicher, dass die Ohrpolster ganz trocken sind, bevor Sie sie wieder aufstecken. Prüfen Sie beim Aufstecken der Ohrpolster auf den Ohrhörer auch, ob diese fest sitzen.

### lagerung ihres ohrhörers

Lagern Sie den Ohrhörer in seinem Schutzetui. Lagern Sie das Etui in einer sauberen, trockenen Umgebung. Setzen Sie Kopfhörer oder Ohrhörer NIE extremer Hitze oder Kälte, hoher Luftfeuchtigkeit oder Flüssigkeiten aus. Es ist keine gute Idee, am Kopfhörerkabel zu ziehen, um den Hörer abzunehmen oder das Kabel aus dem MP3-Player zu ziehen. Sie sollten das nie tun.

## assistenza tecnica

### servizio clienti

Se un componente manca o è danneggiato oppure se la cuffia non funziona, notificare immediatamente il servizio clienti Polk chiamando il numero 1-800-377-7655 (dal lunedì al venerdì, dalle 09:00 alle 17:30 fuso orario GMT—5 ore, solo negli Stati Uniti e in Canada). Se dopo aver seguito le istruzioni per l'appuntamento si rilevano problemi, accertarsi di avere seguito le istruzioni scrupolosamente. Se si determina che il problema risale alla cuffia, contattare il rivenditore Polk presso cui la si è acquistata o il servizio clienti Polk per telefono o per e-mail all'indirizzo [polkcs2@polkaudio.com](mailto:polkcs2@polkaudio.com). Fuori degli Stati Uniti o del Canada, chiamare il numero 001-410-358-3600.

### smaltimento del prodotto

Lo smaltimento di questo prodotto può essere soggetto a regolamenti e/o leggi locali, nazionali o internazionali. Per ulteriori informazioni rivolgersi al rivenditore oppure all'importatore o al distributore Polk di zona.

## indicazioni importanti per il funzionamento e la sicurezza

### ATTENZIONE: usare cautela durante l'ascolto

Gli altoparlanti Polk sono in grado di funzionare a volumi estremamente alti, che potrebbero causare lesioni gravi o anche permanenti all'udito. Polk, Inc. non si assume alcuna responsabilità in caso di perdita dell'udito, lesioni personali o danni alle cose risultanti dall'uso improprio dei suoi prodotti.

### usare la cuffia Polk in modo responsabile

È pericolo, e in molte giurisdizioni proibito dalla legge, usare un veicolo mentre si ascolta da una cuffia. Anche attraversare la strada senza sentire i suoni circostanti può essere pericoloso. Agire con senno e non usare mai la cuffia in un ambiente, o durante un'attività, che richiede completa attenzione. I suoni circostanti potrebbero salvare la vita.

### livelli di ascolto dannosi?

La cuffia Polk è in grado di riprodurre la musica in tutti i dettagli anche ai volumi più bassi. Limitare l'esposizione prolungata a volumi superiori a 85 decibel (dB). L'esposizione regolare a suoni di intensità superiore a 100 dB per oltre un minuto comporta il rischio di perdita permanente dell'udito. Per ulteriori informazioni sui livelli di sicurezza per l'ascolto, consultare le direttive OSHA (l'ente statunitense per la salute e la sicurezza sul lavoro) sul sito [www.osha.gov](http://www.osha.gov).

## selezione degli auricolari

### cuffia con auricolari profondi

Gli auricolari adatti non si limitano a mantenere ferma la cuffia, ma eliminano il rumore estraneo e migliorano sia la risposta ai bassi che il bilanciamento tonale; inoltre, assicurano la massima comodità. È facile selezionare gli auricolari giusti, ma poiché le orecchie non sono mai identiche tra una persona e l'altra, abbiamo incluso auricolari di forma e dimensioni diverse per far sì che la cuffia acquistata rimanga ferma e comoda pur ottimizzando. Il modo migliore di stabilire quali siano gli auricolari ottimali è provare la cuffia con tutti i diversi tipi, iniziando dai più piccoli e procedendo progressivamente verso le dimensioni maggiori. Lo scopo è selezionare auricolari comodi e con buona tenuta, affinché la cuffia non cada quando la si indossa.

**suggerimento:** Provare anche auricolari diversi in ciascun orecchio, poiché le orecchie non sono identiche anche nella stessa persona.

## collegamento della cuffia

### ascolto

Anzitutto, abbassare il volume sul lettore prima di inserire la cuffia; collegare il cavo nel connettore stereo da 3,5 mm del lettore.

**nota bene:** La cuffia ha un orientamento sinistro e uno destro, indicati dalle lettere "L" (sx) e "R" (dx) per indicare in quale orecchio va inserito ciascun auricolare. Si possono anche utilizzare i colori dei cavi per determinare l'orientamento: il cavo colorato è sempre quello dell'auricolare sinistro, mentre il cavo nero o bianco è quello dell'auricolare destro.

## cura e conservazione

### pulizia degli auricolari e della cuffia

**nota bene:** Rimuovere sempre gli auricolari dalla cuffia prima di pulirli e asciugarli bene prima di reinserirli nella cuffia. Pulire quest'ultima con un panno umido. EVITARE che del liquido vada sulla cuffia.

Usare un panno inumidito con acqua tiepida e sapone neutro per ripulire gli auricolari dalla sporcizia e dal cerume. NON utilizzare agenti detergenti forti. Accertarsi che gli auricolari siano completamente asciutti prima di reinserirli nella cuffia; verificare anche che siano inseriti bene.

### conservazione della cuffia

Riporre la cuffia nella custodia fornita e conservarla in un luogo pulito e asciutto. NON esporla a temperature eccessivamente alte o basse, a umidità elevata o a liquidi. Evitare di tirare il cavo della cuffia per estrarre gli auricolari dalle orecchie o lo spinotto dal connettore sul lettore.

## 技术支援

### 客户服务

若耳机产品有任何丢失、损坏或失灵，请立即通知Polk 公司客户服务人员，客服电话是1-800-377-7655（工作时间是美国东部时间周一至周五上午9:00至下午5:30。该电话仅面向美国和加拿大的客户）。在您根据设置指南进行设置后，若遇到困难，请仔细检查您的设置，看是否符合说明中的要求。如需隔离耳机的故障点，请联系向您出售该产品的Polk 公司授权经销商，或通过电话或电子邮件联系Polk 公司客服人员。其电子邮件地址是：polkcs@polkaudio.com。美国和加拿大以外的客户，可致电+1-410-358-3600。

有关产品废弃处理的某些国际、国家和/或地方的法律和/或有关规定，可能适用于该产品的报废处置。如需详细资料，请联系该产品的零售商或贵国的Polk 公司进口商/分销商。

## 重要的性能和安全提示

### 警告：请仔细阅读

Polk 耳机可播放极大音量的声音，可能严重地或永久性地损坏您的听力。Polk 公司不负责由于对其产品的误用而造成的听力损伤、人身伤害或财产损失。此外，我们希望您能保持您的听力，以购买更多的Polk产品。

请您负责地享用Polk 公司耳机。不要在驾驶汽车时佩戴该耳机，因为这样会很糟糕。这样做在许多司法管辖区中被视为违法行为。头戴耳机过马路，会使您无法听到周围声音，无法了解周围情况，因此也是很危险的行为。常识告诉我们，进行那些需要集中全部注意力的活动时，不能佩戴耳机。能听到周围的声音，有时能拯救您的生命。

### 多大的音量是过大的音量？

Polk 耳机可完美再现音乐细节，即使在音量较低的情况下。您应将该限制长时间暴露于85分贝（dB）以上音量声音的机率。若经常暴露于100分贝音量，且每次暴露时间超过1分钟，则可能造成永久性听力损伤。有关安全音量的详情，请访问[www.osha.gov](http://www.osha.gov)网站，查阅上面的职业健康与安全管理局（OSHA）制定的准则。

## 耳塞的选择

### 耳道型运动耳塞

耳塞不但可以把耳机固定在耳道中，而且能帮助您消除外来噪音，提供更强、低音和更均衡的音调，前提是耳塞的插入方式要得当。耳塞插入得当，您会觉得舒服。把耳塞插入耳道这个动作听起来很容易，实际做起来也很容易，但是，没有两个人的耳朵是完全相同的。所以我们提供不同尺寸和设计的耳塞使您能够在其中选出一款耳塞，使耳机在您的耳道中固定牢靠、佩戴舒适，并且能够提供最佳音响效果。哪些耳塞最适合您呢？请用您的耳机来适配所有耳塞。先试小耳塞，然后适配第二大的耳塞，以此方式进行适配。耳塞要佩戴舒适，提供良好的（耳道）密封，并且不得从耳道中掉下来。

提示：左右耳朵可以采用不同型号的耳塞。没有两支耳朵是完全相同的。

## 连接耳机

### 聆听

首先...把音乐播放器的音量调低，然后再插入耳塞。

把头戴耳机的连接电缆插入音乐播放器的1/8英寸（3.5毫米）立体声耳机插孔。

重要事项：UltraFit耳机有左、右声道。左声道标记为“L”，右声道标记为“R”，以便正确佩戴。左右声道也可用颜色来区分。左声道耳机永远采用彩色电缆，右声道永远采用黑白电缆。

## 耳机的保养及保存

### 如何清洁耳塞和耳机

重要提示：在清洁之前，务必从耳机上取下耳塞，并彻底干燥之，然后把其装回到耳机上。

用湿布清洁耳机。不得让任何液体进入耳机。

把温水和温和洗洁精涂抹到湿布上，然后用湿布清除耳塞上的污垢和耳垢。请勿使用刺激性清洁剂。耳塞完全干燥后才能被装回耳机。另外，当您把耳塞装回耳机时，请确保耳塞完全入位。

### 耳机的收藏

请把耳机收藏在耳机保护盒中。请把盒存放在干燥清洁的环境中。切勿将耳机暴露于极端高温或低温、高湿度或液体中。请勿通过拉拽耳机线的方式从耳朵上拽下耳机，或从播放器上拽下插头，因为这是不当做法。

MOMENTUM

## MOMENTUM

The MOMENTUM headphones make the famous Sennheiser sound quality tangible. It is reflected in the material selection of these refined headphones. The use of the finest, soft supple breathable leather, displays our commitment to style and comfort. On the other hand, reflecting its technical excellence is the use of high-performance neodymium magnets for extraordinarily rich and detailed stereo sound.

- **Closed design** – Isolate against ambient noise
- **Ease of use** – Integrated smart remote with in-line microphone for ease of use
- **Finely selected materials** – Luxurious and tough breathable leather headband for optimum sweat and water resistance
- **Premium comfort** – Soft and supple finest leather earpads for excellent wearing comfort
- **2 year warranty**

## Product Reviews

### Dynamic MicroDriver

The SE215 delivers detailed sound with enhanced bass. A detachable cable with formable wire enables easy replacement and a secure, comfortable fit onstage or on-the-go. Sound Isolating sleeves in multiple sizes provide up to 37 dB of isolation and a customized fit.

Evolved from personal monitor technology that's been road-tested by pro musicians, the SE215 offers detailed sound for personal listening or professional monitoring.

[Two-year limited warranty: learn more.](#)

### Features

#### Sound Isolating Design

Comfortable sound isolating sleeves block up to 37 dB of ambient noise. Sound isolation technology prevents outside noise from interfering with your listening experience, whether on-stage or on-the-go. Shure Sound Isolating Earphones require a proper fit to achieve the best sound.

#### Unmatched Personalization and Comfort

Ergonomic, Professional Design

- Lightweight, low-profile shape with optimized nozzle angle is designed to rest comfortably in the ear.
- Over-the-ear configuration keeps cables out of the way.

#### Detachable Cable with Wireform Fit

- Durable Kevlar® reinforced cable allows easy replacement or customization.
- Formable wire ensures secure placement, and over-the-ear configuration keeps cables out of the way.
- Gold plated MMCX Connector has a lock-snap mechanism allowing 360-degree rotation for comfortable fit.

**Fit Kit Includes**

- Sound Isolating Sleeves

The role of the included sound isolating sleeves is twofold: blocking ambient noise and ensuring a comfortable customized fit. Because every ear is different, the Fit Kit includes three sizes (S, M, L) of the flex and black foam sleeves. Experiment with the size and style that creates the best fit for you. A good seal is key to optimizing sound isolation and bass response as well as maximizing comfort during extended wear.

- Carrying Case

A soft-zip, compact carrying case is included to provide a convenient, tangle-free solution to store and travel with your earphones.

**Available Options**

SE215-CL	SE215, Clear
SE215-K	SE215, Translucent Black

**DECLARATION OF JACOB T. MERSING**

I, Jacob T. Mersing declare as follows:

1. I am employed as a Senior Legal Assistant at Kelly IP, LLP, counsel for Monster, Inc. This declaration is based on my personal knowledge.

2. On November 5, 2014, I visited the Best Buy store located at 3100 14th St NW, Washington, D.C. 20010. I took a photograph of the entrance of the store. A true and correct copy of the printout of this photograph is attached as Exhibit A.

a. Inside the Best Buy store, I located the section of the store that contains headphones between the cellphone and laptop sections of the store, directly across from the “Geek Squad” desk. Best Buy’s headphone selection had a full wall, and two full sides of an aisle with a wide variety of headphones that had a number of different types of cable designs. I took photographs of the headphone product displays. True and correct copies of the printouts of these photographs are attached as Exhibits B through I.

b. I looked at the entire selection of headphones at the Best Buy location and counted over 150 different headphones for sale. I took photographs of a representative sample of these different headphones, which are attached as Exhibits B through I.

c. Best Buy sells headphones with cables that are advertised as “tangle-free” or that minimized tangling. I observed a pair of over-ear headphones made by Skullcandy called Hesh 2. On the packaging of the Hesh 2 headphones, Skullcandy advertises that its cable design “Eliminate[s] cable tangle.” I purchased the Hesh 2 headphones and confirm that the headphone cables are round in shape. I took photographs of the packaging of the Hesh 2 headphones and the headphones and cable within the package. True and correct copies of the printouts of these photographs are attached as Exhibits J through M.

3. On November 5, 2014, I visited the Target store located at 3100 14th St NW, #201, Washington, D.C. 20010.

a. Inside Target, I located the section of the store that contains headphones. Target’s headphone selection had a long aisle displaying a wide variety of headphones with a number of different types of cable designs. I took photographs of the headphone product displays. True and correct copies of the printouts of these photographs are attached as Exhibits N through Q.

b. I looked at the entire selection of headphones at Target and counted over 90 different headphones for sale.

c. In a prominent display within the headphones section, Target features a pair of headphones made by Bose that is out of the package for customers to test before buying. This set of headphones made by Bose has a cable design of two round cables attached to each

other to create a concave groove in the center of the cable. I took photographs of this cable design. A true and correct copy of the printout of this photograph is attached as Exhibit R.

I declare under penalty of perjury of the laws of the United States that the foregoing is true and correct under 28 U.S.C. § 1746. This declaration was executed on November 12, 2014.
